For immediate release:

To members of the media

From: EPRPYL PR Team

Dear friends

The Ethiopian People's Revolution Party Young League (EPRPYL) was formed on June 29, 2009 at the end of the two days founding congress held in Chicago, Illinois, USA. Since its formation, EPRPYL has made every effort to introduce itself to the public in general and the young generation in particular. It has tried to explain its aims and objectives using various avenues and forums.

In the last one year EPRPYL has made marked progress in expanding its base and its organizational structures in different continents and as well as in several places in Ethiopia. Many young Ethiopians both inside and outside Ethiopia joined its ranks and various EPRPYL branches were established in different cities of America and Canada, Europe, Oceania, Asia, Africa and clandestinely in different parts of Ethiopia. On June 30, 2010 EPRPYL held its first congress in San Jose, CA whereby representatives who came from different continents attended the congress and after thorough deliberations of the EPRPYL activities the participants adopted policies and plan of actions and elected members of the new leadership committee.

The EPRPYL PR committee is one of newly formed committees established by the first congress of EPRPYL and has been commissioned to undertake all forms of PR work of the organization. Therefore, anyone who has queries about our organization or interested to know about EPRPYL's goals, aims, objectives, activities etc. can contact the PR committee of EPRPYL through the following addresses. You can call us, you can e-mail us or you can leave messages on our voice mail.

The PR committee of the EPRPYL is more than happy to provide all the necessary information about the organization and is ready to facilitate the condition whereby members of the leadership committee of the organization can provide oral explanations about the organization through interviews or other mechanisms.

Thank for your interest. We look forward to hearing from you.

The PR committee of EPRPYL
